Who We Are

Established in 1892, the mission of The McLean County Museum of History is to preserve, educate, and collaborate in sharing the diverse stories of the people of McLean County. Through immersive and innovative exhibits, programs, and research, we engage the community to understand and be inspired by the rich history of McLean County.

Investment Opportunity

Approximately 70% of our annual budget is supported by private donations, including contributions and sponsorships from our local business community. **We want to make it easy for our business partners to invest in our work at the Museum.** We are engaged in an array of programming annually, most of which is offered free to the community. Private support makes this possible and we offer a variety of sponsorship opportunities for our partners to consider based on their specific goals.

Partnering With You

The attached Corporate Alliance Program shares both individual sponsorship opportunities, as well as bundled opportunities that provide additional value throughout the year. **The bundled opportunities make it easy to invest with one contribution and the choice of those programs aligning best with your specific goals.** We can provide an invoice or payment plan for your convenience. Corporate memberships are also available for companies based on the size of the business, allowing employees and their families free admission to the Museum and a 10% discount on gift shop purchases.

Serving the Community

We serve the entire community, with programming for youth, seniors, and educators. We have volunteer opportunities for your employees and are free to the public all day on Tuesdays and on Saturday mornings during the Farmer's Market. In a normal year we serve over 40,000 individuals with guests from 48 U.S. states and countries abroad.

Your Museum, Your History!

Our goal is to establish relationships with businesses where we can develop an annual funding level that is beneficial to both our partners and the Museum. We are your historians of McLean County--the go-to source when individuals and organizations are looking to research the past and preserve their present stories for the future. Your story is an important part of explaining who we are, and your story is our story at the McLean County Museum of History.

We look forward to discussing how we might partner together!
